%

Security Features

Microprinting
Warning Band
Guaranteed Watermark
Colored background
Chemical Substitution
Toner reduction pattern
Heat sensitive ink

Fraud Indicator:

- Embossing is live on back surface as a solid or jagged line and is not removable under magnification.
- Alerts banks that the document contains security features.
- Absence of chain link watermark when viewed from either side indicates fraudulent document.
- Absence of color or pattern on face of check.
- Colored ink indicates possible tamper alert.
- Checks surface for surface discolouration indicating possible mechanical alteration.
- When rotated or otherwise exposed to heat the printing does not change from color to another.
